

Animals at Your Pre-School

Schedule a 30-minute program at your pre-school featuring a visit with our live or mounted animal, presented by a staff member from the Connecticut Audubon Society Center at Glastonbury. Programs are limited to 25 students.

- **Animals from the Center** - By far, our most popular summer program. Meet a variety of the Center's animals and see what makes each one special.
- **Reptiles from the Center** - What characteristics do reptiles have? Visit with some of the Center's reptiles. Each is unique in it's own way.
- **Watching Birds** - What makes a bird a bird? What do they eat? Get a bird's eye view of our Center's doves.
- **Minibeasts** - Little critters roam the earth everywhere!! They are beneath our feet, in our dwellings, out in the woods and other places that would surprise even the most observant person. Search around to find and better understand the Minibeast.
- **Underground Animals** - Learn about the animals that live underground. Meet "Chucky" our taxidermy groundhog, and one of the Center's underground dwellers, if available.
- **Smorgasbord** - We can teach most any nature topics that will go along with your weekly camp theme. If there is a topic that supplements your needs please let us know and we will design a program just for you.

We can visit you for \$90 per program plus mileage. Or, you can schedule a program at our center for \$50 for the first 10 children and \$5 for each additional child. Programs are offered Mondays through Fridays, throughout the year, between the hours of 9 a.m and 3 p.m. Register early. Dates are filled on a first-come basis. Cancellations require a month's notice. Weather cancellations will be rescheduled.
