Connecticut Audubon Society’s Summer Camps are staffed by experienced teacher-naturalists from CAS Centers and college-educated men and women who have experience working with children.

Our Summer Camps staff is First Aid, CPR, & Epi-Pen trained.

Low staff-to-camper ratios ensure all campers have a safe, fun, and educational camp experience.

Our Summer Camps staff strive to provide a variety of hands-on activities each day.

Register online at www.ctaudubon.org or by mail starting February 11, 2020.

Children must be toilet trained to participate in camp sessions

To participate in camp, your membership must be current at the Chickadee level or higher, both at the time of registration and during your child’s camp attendance. If you are not a current member, you will have the option to join at the Chickadee level when you register. To check on your membership status, please call 203-259-0416 x 105.

Each week we spend quality time outside enjoying Earle Park! Camp grouping is cooperative with younger and older children learning side by side. Each day is filled with the specific week’s theme in mind, but curriculum is tailored along the way to meet the groups’ interests and skills. You can count on earthy toes and hands when your child comes home! We have tons of fun through creating long-lasting relationships, encouraging curious minds to explore, and enjoying nature!
Adaptations I & II:
Let’s study our resident animals! We will learn about a different genus, (mammals, reptiles, amphibians, birds, and fish), each day of the week! We will explore their specific adaptations that help them thrive in their habitat, gain hands-on experience as to how we care/handle these animals, and discuss their benefits/impacts on the environment.

Wild Jobs:
Learn what it’s like to have a wild job! Meet a variety of professionals who work in fields such as: research, conservation, education, photography, and wildlife rehabilitation! Discuss the ranges of activities and equipment involved in their work and the types of training and career paths which led them to their wild jobs! (No camp Friday, July 3rd)

Survival Skills I & II:
Do you have what it takes to survive in the wild? Can you find food and water? Can you build a shelter, build a fire, or read a map to get back to civilization? How about using your camouflage skills to hide from predators? If you think you’ve got what it takes, try thi

Birds I & II:
Here at the CT Audubon Society, our mission to help conserve the environment for bird populations through education and advocacy. This week, you will learn about our efforts, how you can help bird populations as well, and learn about the truly amazing anatomy of a bird. We will be hands-on, looking at bird feathers, nests, eggs, and pellets this week to understand just how special birds are to our ecosystem.

Creepy, Crawly, Grossology:
Have you ever wondered why worms are slimy, why millipedes have so many legs, or a spider has so many eyes? Wonder no longer during this week of investigation! We will be observing all things creepy, crawly, slimy, flying, and buzzing as we look at insects, arachnids, and worms! These unique adaptations serve a purpose and we could learn a thing or two about the phrase “survival of the fittest” if we think hard enough.

Geology Rocks:
Geology is the study of solid Earth, the rocks of which it is made up of, and the processes by which they change over time. During ‘Geology Rocks’, we will learn about different types of minerals and rocks and how mountains form. We’ll also investigate topographical maps, the amazing power of volcanoes and quick sand, and even study the soil beneath our feet. This week, you’re the geologist and we will help you put your scientific mind to good use!
The Connecticut Audubon Society Summer 2020 Summer Camp

Register online at www.ctaudubon.org or by mail starting February 11th, 2020

Online & Mail-In Registration procedures for all Summer 2020 Camp Programs held at our Glastonbury Center.

ONLINE REGISTRATION:
2. Go to the facility where your child will attend camp. (Center at Glastonbury.)
3. Complete the online registration process.
4. To receive a member discount your membership must be current at the Chickadee level or higher at the time of registration and during your child’s camp attendance.
   If you are not a member you will have the option to join at the Chickadee level when you register.
   To check your membership status, please call 203-259-0416 x105
5. You will receive an e-mail confirmation.
6. Please check each Center’s website for detailed camp polices, procedures and equipment lists.

If you prefer to pay by check, please see the mail-in registration procedures below.

MAIL-IN REGISTRATION: must be postmarked on or after February 11th, 2020
For registrations at different CAS Centers: mail separate registrations and payments directly to the Center.
7. Complete the Registration & Parental Permission form.
   Forms can be found at the Center at Glastonbury or www.ctaudubon.org
8. If you are registering more than one child, please use a separate form for each child.
9. You may send in one payment for all classes registered for one family.
10. Full payment in the form of check or credit card must accompany all mail-in registrations.
11. To receive a member discount your membership must be current at the Chickadee level or higher at the time of registration and during your child’s camp attendance.
   If you are not a member you will have the option to join at the Chickadee level when you register.
   To check your membership status, please call 203-259-0416 x105
12. You will receive an e-mail confirmation.
13. Please check each Center’s website for detailed camp polices, procedures and equipment lists.

PLACEMENTS:
Although we make every effort to accommodate requests for friends and siblings to be placed in the same class, we cannot guarantee such placement. Any request should be made on the registration form or sent in writing and received least two weeks prior to the week attending.

WEATHER POLICY:
All programs are held rain or shine. In the event of inclement weather, an outdoor activity may be replaced with an equivalent indoor activity. We reserve the right to change programs without notification.

REFUND POLICY:
Changes to another week must be received by e-mail at least two weeks prior to the program session for which the change is being requested.
Cancellations:
All cancellation requests must be received by email.
If we receive your cancellation request before June 1, 2020 you will receive a refund minus a 20% fee per program canceled. Membership fees will not be refunded.
After June 1, 2020 there are no summer program refunds.
If we cancel a program, you will receive a full refund.
All changes and cancellation requests should be emailed to the following:
   Center at Glastonbury camps to Gail Zemantic at gzemantic@ctaudubon.org
