Animal Habitats
Take to the trails and investigate different animal habitats and discover who lives where. You'll learn about endangered animals and what we can do to protect the habitat and the animals that live there. Then put what you've learned together with your creative talents and create an animal habitat. Helps accomplish Steps 1, 2, 3, 4 & 5.

Cost: $14 a scout
Program length: 2 hours
Badge not included

Junior Outdoor Art Explorer
Join us as we explore art and music in nature. The sounds, textures, and colors of the natural world can provide inspiration for both visual art and music. Explore the natural environment and become inspired to create your own art work. We'll make a painting of the natural habitats using watercolors and acrylic paints, make an impression of leaves, acorns or rocks, and create a nature symphony.

Cost: $14 a scout
Program length: 2 hours
Badge not included

Scheduling
The Center at Fairfield provides programs that meet the needs of scouts and their leaders.

Our teacher-naturalists will lead your scouts through a fun-filled, hands on science based program. Discover the unique habitats and wildlife while working towards your badge requirements.

When:
- Programs may be scheduled for weekdays and weekend based on availability.
- We offer two badge days a year. The schedule will be posted.

To Register:
- Please call 203-259-6305 ext. 117 or email tkevalis@ctaudubon.org

Location:
- Center at Fairfield, 2325 Burr Street, Fairfield, CT 06824

Rosie's Story
Reduce, recycle and reuse, let's make our world a better place! We will start with Rosie's story “A Better Beach for Everyone” We'll play recycle relay and discover new uses for old things. We will then head outside for a forest clean up. Each Daisy will take home ideas and a personal poster to share with her family.

Brownie
Hiker
Where does the trail lead us, will we come upon a pond or marsh along the way or perhaps an animal in hiding? This program takes you on a hike in the Larsen Sanctuary where you’ll search for signs of animals and birds. You'll also learn what gear to take on a hike and how to pack tasty, healthy snacks for energy. Helps accomplish Steps 1, 2 & 5.

Bugs
Creepy, crawly buggy bugs! They play an important role in our world. Discover just how important they are to our ecosystems through exploration in the Larsen Sanctuary. You'll look for bugs in action in their various habitats and count how many different kinds you can find. Then you’ll put your artist flair to work by drawing a bug poster. Helps accomplish Steps 1, 3, 4 & 5.

Brownie Outdoor Art Creator
The colors, shapes and sounds have always been an inspiration for artists. We will head outdoors to gather natural materials to create your own work of art. We will create leaf and bark rubbings, draw a picture of an animal or plant that we have seen up close and create a work of art outside for all to see. Helps accomplish Steps 1, 2, & 4. Badge not included.

Brownie Outdoor Adventurer
Center at Fairfield has all of the elements for an exciting and joyous outdoor adventure like marshes, streams, ponds and fields. Together we will explore all the habitats our sanctuary has to offer. We will provide a nature journal where you can record your observations and write down your favorite experiences of the day. Helps accomplish Steps 1, 2, & 3.

We will then head outside for a forest clean up. Each Daisy will take home ideas and a personal poster to share with her family.

Clover's Story
A reading of “The Busy Buzzy Bees” starts our adventure in using resources wisely. We'll discover new uses for old things. Explore how vegetable scraps become the compost that helps enrich our Pollinator Garden. Using recycled materials, each Daisy will create a small sketch book to take home.
